Skills

JavaScript • HTML • CSS • jQuery • Postgres(SQL) • Node • Express • Ruby on Rails
• React • D3 • github

Experience

1/2016 – 4/2016

General Assembly

Web Developer | Web Development Immersive – New York, NY

- Mastermind - Single page app version of the classic boardgames using HTML, CSS, JavaScript & jQuery
- Flashcards - Full CRUD web app that allows users to create and study flashcards; built with Node, Express and user authentication via bcrypt (npm module) & Postgres
- Mad Mad Libs - A modern take on Mad Libs, with the goal of creating a creative community. This collaborative project, with two other classmates, was built with Node, Express, React and Firebase
- Consider Water - An online app to help people with anxiety pass the time. Features include a journal, a breathing exercise, a mood ranking system and prompts for common relaxation techniques. Built with Ruby on Rails.

6/2015 - 8/2015

Purchase College

Adjunct Instructor– Purchase, NY

- Taught two General Biology Lab summer sessions. These were intensive courses that compressed what students typically learn in 15 weeks into just 4 weeks.

8/2014 - 5/2015

Manhattanville College

Lab Manager/Visiting Lecturer– Purchase, NY

- Managed the chemistry and biology teaching labs. Taught two sections of General Biology Lab.

8/2004 - 5/2014

Barnard College

Associate Director of Introductory Biology Labs– New York, NY

- Curriculum Development, lab management, taught two lab classes a semester

Education

Columbia University
